

## Character Resource Tracking Sheet

- Thanks for downloading this character resource tracking sheet, for use with the Pathfinder roleplaying game, by Paizo
- The sheet is designed to make it easier for players to track resources such as hit points, spells cast, ammunition, wand charges and other items during play
- Use the gray boxes to the left of check boxes to record the type of item you are tracking; black out or strike through check boxes beyond your maximum (e.g. ammo, charges, uses per day etc); mark off check boxes as they are used.
- Please feel free to share these with anyone else that might get use from them, and if you're ever in beautiful Asheville, North Carolina, do stop by and play a game
- Suggestions for additions or amendments can be emailed to me at [paul.maplesden@gmail.com](mailto:paul.maplesden@gmail.com)

Cheers, Paul.
